The authors regret to have noticed the following mistake to be corrected.

The first sentence “In the global fight to limit climate change, the European Union (EU) achieved important reductions of its CO₂ emissions of 45 % in 2019 compared to 1990 figures (IEA, 2021)” needs to be replaced by this one “In the global fight to limit climate change, the

European Union (EU) achieved important reductions of its CO₂ emissions of 27,4 % in 2019 compared to 1990 figures (IEA, 2021).”

Moreover, the caption of Fig. 1 could be extended for clarification: “The share of consumption not covered by the products (e.g. 8 % in buildings, 16 % in industry and 23 % in transport) is not labelled.”

The authors would like to apologise for any inconvenience caused.
