In this workshop we intend to participants to test and self-assess their level of communication skills and obtain referrals for quality communication and effective in terms of the different public and professional spaces. To develop this workshop the following activities will be held:

1) Watching videos of great communicators to identify keys to effective and efficient communication.
2) Creation of a presentation with the purpose and aimed at a specific target.
3) Mapping your communication skills implemented.
4) “Make your own path” to reach an efficient and effective professional communication.
