THE NETHERLANDS

Wicherink, S.

30 years after the regrettable end of the existence of a Dutch Pharmaceutical Museum in Amsterdam –the life's work of the late Dr D.A. Wittop Koning- the Dutch pharmaceutical heritage has found a new accommodation.

In the autumn of 2007 the Dutch National Pharmaceutical Museum will open its doors in the splendid 17th century building 'De Moriaan' ('Black Moor') in the ancient centre of Gouda.
