The Glossary of WWII United States Military & Related Terms, European, North African, and Mediterranean Theaters of Operations; Ground Forces, is intended to assist in reaching a more common understanding of the meaning of military terms used during World War Two. It is designed especially for anyone interested in studying the evolution of military terminology in wartime, in particular, the apparition of new concepts, which require new terminological units for their representation. From a synchronic standpoint, the glossary focuses on the use and the evolution of terms. Whereas military glossaries tried to delimit the meaning of every term, avoiding (as much as possible) synonymy, some of the terms were not broadly used and others were employed instead. On the other hand, new synonyms replaced old ones and (in some instances) they were used to describe different concepts. In sum, the aim of this book is to show how the concept logical system of the military discipline evolved during a specific time span where a conflict fostered the apparition of new terminological concepts.

Due to the fact that we deal with such a vast interdisciplinary discipline, our aim is limited to the terminology used by the ground forces during this period. Besides, as the conflict was fought in several theaters of operations, we have selected those concerning Europe, North Africa, and the Near East; that is, the European, North African, and Mediterranean Theaters of Operations. Although there are more specific terms to subdivide these theaters, we consider it is not necessary to specify them any further, because our intention is only to show from which campaigns the terms are related to. Likewise, even though our scope is limited to the ground forces, we have also added terms concerning the Navy and the Air Forces because these branches supported the Army Ground Forces in different operations, such as seaborne and air-landing ones. For this reason, we have included terms related to naval and air tactics and weapons, directly related to giving support to the foot troops.

Selection of entries

The dictionary contains 3,090 terms selected from a preliminary list about four times as large. The final selection falls within well-marked boundaries. Each term was chosen for its military significance. Terms almost universally possessing a general meaning have not been included unless their military meaning in some way differs from the general one. However, those that are no longer in use today, but that were during the period we deal with, are included. In short, the Glossary of WWII United States Military & Related Terms makes no attempt to replace general dictionaries for words or phrases of general meaning. Only terms dealing with objects or practices of general military interest have been fully defined. In order to make the glossary easily understood by anyone interested in the topic, highly specialized activities are defined so as to give only a general idea to readers not specialists in the field concerned.

The 3,090 terms defined have been drawn from official military literature printed during that period of time: in this case, from the Intelligence Bulletin Manuals. However, some terms had a very limited use, because soldiers preferred to use alternatives. By selecting articles written between 1942 and 1946, it has been possible to compile a corpus from
which terms have been extracted and analyzed. Studying military articles written by soldiers to soldiers gave us the possibility of immersing ourselves in an adequate environment in order to explore the terms, their use, and their evolution. The glossary is the first to be prepared directly and exclusively from such sources.

The corpus used to assemble this glossary consisted of 275,435 words. As we have already mentioned, the articles included in it come from the Intelligence Bulletin of the U.S. Army. The issues were printed between September 1942, and July 1946. The authors were mainly officers and the topics varied from the description of a new military weapon to an evaluation of an attack. Emphasis was given to the terminology employed within the Royal British Army. However, enemy tactics and armament were described in full detail. Special attention was also given to the terminology from other languages; many of these terms will be employed by the United Nations Forces well beyond World War Two.

However, this work cannot be considered a complete glossary of WWII military terms. The largest glossary consulted published during the time concerned (edited in 1944) contained approximately 7,000 entries, abbreviations and acronyms included. In fact, our scope was to research which terms were employed during the conflict, and whether they were normalized or not. In other words, it has been an investigation into “real language”; that is, which military terms were used by soldiers during the war. Using the tools of Corpus Linguistics and terminology extraction we have been able to identify, isolate, and study every terminological unit in depth. Likewise, and thanks to the contexts from which the terms have been extracted, we have studied in detail every term while confirming, at the same time, its status.

Despite the list of terms having been drawn from official literature, colloquial or newspaper phrases have also been included. Jeep, bazooka, and G.I., for example, were well known in Army talk, and so are included by this principle. Since the glossary is for use for military terminologists and historians, obsolete terms usually are not included. However, the titles of some organizations, such as the Women’ s Army Auxiliary Corps, which have been superseded or absorbed by other organizations, and the names of positions or ranks within such organizations do appear in this dictionary without violating this principle since the terms and discussions of them appear in the official military literature. Likewise, those terms that were not written in English and were not translated will be included. Flak, Panzer, and Kamikaze, for example, were broadly used by United States Army Forces, and so have been added to the glossary.

Level of definitions

The glossaries consulted to compile this work were intended to be used by troops undergoing training at any given time, with their natural wide variation of education and intelligence. Due to the fact that the majority of the recruits were without previous military experience, and the remainder were likely to have missed many current practices, the explanation of military terms has been made in readily understandable language. In other words, we consider that (in this case) the terminology communication is made mainly for nonexperts by experts, and so the definitions.
The definitions in this glossary, wherever practicable, have been maintained at a level of simplicity easily understood by anyone who wishes to study the military terminology used during World War Two. The process of simplification has involved both a scaling down of vocabulary difficulty and a departure from some time-honored military phrasings. It can be expected that some traditionalists will regard this simplification as a sacrifice of accuracy. In a sense, this may occasionally be true, but the possible loss of accuracy is more than offset by the gain in reader comprehension. Official definitions that are clear to men with a long background of military experience have been amplified and restated to have a clearer meaning to inexperienced readers. The need for simplification and for full definition has been intensified by the fact that space does not permit the use of diagrams, drawings, or other illustrations. Without diagrams, definitions must be full and simply worded to be fully understood by the average person interested in the topic.

Every entry includes grammatical and terminological information, examples of their use, and their sources. As regard to their word forms, sometimes a lexical item can either be used in singular or plural, although not as a terminological item. Sometimes terms are only used in one form, due to their frequency of usage, which is also included. Finally, a date of the compilation of every term has also been added.

Selection of entries

Every entry has been selected due to its specialized meaning. This meaning has mainly been extracted from military glossaries. Nevertheless, definitions from post-war glossaries have been utilized for some terms. It was due to various reasons, the most common being their normalization after the end of hostilities. For example:

TERM: primary mission
SUBDOMAIN: Tactics & Strategy
PART OF SPEECH: noun
WORDFORMS: primary mission
DEFINITION: Principal purpose which an organization is designed to accomplish.
CONTEXT SENTENCE: When an assault artillery battalion is attached to an infantry division cooperating with Panzer units in an attack, the battalion's primary mission is to destroy the hostile antitank defenses.
FILENAME: IB-M22.txt
NUMBER OF HITS: 5
DATE ENTERED: 11/12/2014

When a definition has been extracted from a general online dictionary, it normally means that the term was considered as such during the time span under study, but not nowadays. It is due to a process called de-terminologization (Meyer and Mackintosh 111). For example:

TERM: antiaircraft fire
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: noun
WORDFORMS: antiaircraft fire
DEFINITION: Firing at enemy aircraft.
CONTEXT SENTENCE: After the pull-out, the planes swoop down to about 100 feet from the ground in order to escape antiaircraft fire, and, while low, they machine-gun any target in sight.
FILENAME: IB-M13.txt
NUMBER OF HITS: 17
DATE ENTERED: 10/1/2015

If a new term has been found, its definition may have been extracted from the literature, as it is indicated with the code number of the text. For example:

TERM: the box
SUBDOMAIN: Tactics & Strategy
PART OF SPEECH: noun
WORDFORMS: the box, the boxes
DEFINITION: A German formation. Its average dimensions would be 2 miles deep, with a frontage of 200 yards. On the move or in the attack, the antitank and antiaircraft guns guard the flanks and the front. When the defensive is assumed, the infantry guns and field guns are usually inside the box.
DEFINITION SOURCE: IB-M17.txt.
CONTEXT SENTENCE: If the artillery has accompanied the tanks in the advance, it may either continue to support them or may enter the box to increase its antitank strength.
FILENAME: IB-M17.txt
NOTE: A German translated term.
NUMBER OF HITS: 14
DATE ENTERED: 30/10/2014

However, if no definition has been found for a terminological unit, we will formulate one as a proposal. It is not our aim to create new definitions, but to help others to redefine it, if necessary. For example:

TERM: defensive weapon
SUBDOMAIN: Ordnance
PART OF SPEECH: noun
WORDFORMS: defensive weapon, defensive weapons
DEFINITION: Weapon suitable for defense; meant for protection.
DEFINITION SOURCE: Author’s proposal.
CONTEXT SENTENCE: On the other hand, the German stick hand grenade with a shrapnel ring is intended solely for use as a defensive weapon. Enemy instructions state that soldiers are to use it only when they are protected by good cover, since the shrapnel is effective up to a radius of 30 meters (about 32 1/2 yards). Without the ring, the grenade may be used in the usual manner.
FILENAME: IB-M32.txt
NOTE: The definition has been based on that of defensive (3).
NUMBER OF HITS: 7
DATE ENTERED: 21/11/2014
Abbreviations

Abbreviations and acronyms authorized in Army Regulations (AR 850-150) and in FM 21-30 have been included in the body of the text. However, other unauthorized ones have been added due to its frequency of use as well. Each abbreviation is included as an entry in regular alphabetical order. It also appears in connection with the term for which it stands, where it is placed after its definition to avoid interference in understanding the meaning. For example:

TERM: amphibious
SUBDOMAIN: Interdisciplinary
PART OF SPEECH: adjective
WORDFORMS: amphibious
DEFINITION: Capable of operating on both land and water; amphibian; as amphibious tanks, or amphibious forces.
ABBREVIATION: amph
SYNONYMS: amphibian
CONTEXT SENTENCE: Notes on boats and ships in amphibious operations.
FILENAME: IB-M23.txt
NUMBER OF HITS: 11
DATE ENTERED: 31/10/2014

If the entry is a word with no special military meaning, it is nevertheless given a definition taken from a general dictionary. The aim is not to leave any entry without a proper definition. Sometimes, if the word does not have a specific meaning in the military LSP, it does its abbreviation or acronym, and a definition is added for a better comprehension. For example:

TERM: mechanic
SUBDOMAIN: Organization
PART OF SPEECH: noun
WORDFORMS: mechanic, mechanics
DEFINITION: A person who repairs and maintains machinery.
ABBREVIATION: mech
CONTEXT SENTENCE: ...during this period, mechanics are sent to the workshop company for advanced training, or else master mechanics are brought in to give instruction.
FILENAME: IB-M19.txt
NUMBER OF HITS: 10
DATE ENTERED: 5/11/2014

As we mentioned before, if abbreviations are also used in the literature, they will also be included as independent entries. For a complete definition, please refer to the term. For example:
TERM: **FM**  
SUBDOMAIN: Training & Doctrine / Interdisciplinary  
PART OF SPEECH: acronym  
WORDFORMS: FM  
CONTEXT SENTENCE: (1) Army doctrine on this subject, reference should be made to FM 31-50, "Attack on a Fortified Position and Combat in Towns."

FILENAME: IB-M35.txt  
NUMBER OF HITS: 8  
DATE ENTERED: 25/11/2014

Cross References

Preference between two or more terms having identical meanings has been established according to the indications made in the glossaries consulted. So, as it was agreed, when two or more terms have identical meanings and one has a clear preference, only the main term has been defined. Other terms are merely listed and referred to the preferred term. However, its frequency of use may indicate that, in practice, it is not altogether precise, as it may be indicated by the number of hits found for every term in the corpus. For example:

TERM: **junior officer**  
SUBDOMAIN: Organization  
PART OF SPEECH: noun  
WORDFORMS: junior officer, junior officers  
DEFINITION: Officer in the Army below field grade. A captain, a first or a second lieutenant is a junior officer.  
SYNONYMS: junior commander, junior leader  
CONTEXT SENTENCE: The training principles which follow should serve to give U.S. junior officers and enlisted men a much clearer understanding of the German soldier's military background.  
FILENAME: IB-M31.txt  
NUMBER OF HITS: 25  
DATE ENTERED: 18/10/2014

TERM: **junior commander**  
SUBDOMAIN: Organization  
PART OF SPEECH: noun  
WORDFORMS: junior commander, junior commanders  
DEFINITION: See junior officer.  
SYNONYMS: junior officer  
CONTEXT SENTENCE: The German Army emphasizes that the skill and leadership of junior commanders are severely tested in mountain warfare inasmuch as forces will generally be split into relatively small groups.  
FILENAME: IB-M22.txt
When no clear preference can be established, all terms are defined in parallel language and cross-referred. For example:

TERM: smoke projectile
SUBDOMAIN: Ordnance
PART OF SPEECH: noun
WORDFORMS: smoke projectile, smoke projectiles
DEFINITION: Any projectile containing a smoke-producing chemical agent that is released on impact or burst. Also called smoke shell.
SYNONYMS: smoke shell
CONTEXT SENTENCE: The smoke projectiles are used to form smoke screens or smoke zones.
FILENAME: IB-M26.txt
NUMBER OF HITS: 4
DATE ENTERED: 29/10/2014

TERM: smoke shell
SUBDOMAIN: Ordnance
PART OF SPEECH: noun
WORDFORMS: smoke shell, smoke shells
DEFINITION: Any projectile containing a smoke-producing chemical agent that is released on impact or burst. Also called smoke projectile.
SYNONYMS: smoke projectile
CONTEXT SENTENCE: In attacking a village, German tanks fire smoke shells to lay a screen around the village in an effort to confuse the defenders as to the direction of the attack.
FILENAME: IB-M35.txt
NUMBER OF HITS: 23
DATE ENTERED: 10/10/2014

However, the use of the terms may indicate that wartime glossaries are not correct and the non-preferred term was much more used than the preferred one, or that there existed a clear preference for one in particular. In these cases, a note may be included in these entries to comment on variations observed.

Finally, many definitions carry a sentence making a distinction between terms which might be confused. For example:

TERM: mechanized
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: adjective
WORDFORMS: mechanized
DEFINITION: Equipped with armed and armored combat vehicles such as tanks, half-track carriers, gun carriers, etc. Mechanized differs from motorized, in that a motorized unit is provided with a means of transportation only, whereas a mechanized unit both travels in, and fights from, its vehicles.

ABBREVIATION: mecz

CONTEXT SENTENCE: German mechanized tactics are likely to follow certain set patterns. Nevertheless, it must be remembered that German commanders are clever at changing standard tactics to fit the situation at hand.

FILENAME: IB-M12.txt
NUMBER OF HITS: 14
DATE ENTERED: 8/4/2014

TERM: motorized
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: adjective
WORDFORMS: motorized

DEFINITION: Equipped with motor-driven vehicles. Motorized differs from mechanized, in that a motorized unit is provided with a means of transportation only, whereas a mechanized unit both travels in, and fights from, its vehicles.

ABBREVIATION: mtz

CONTEXT SENTENCE: The partly motorized reconnaissance unit carries out tactical reconnaissance for an infantry division.

TERM: AA
SUBDOMAIN: Ordnance / Tactics & Strategy
PART OF SPEECH: acronym
WORDFORMS: AA
CONTEXT SENTENCE: (1) The value of this information to the Luftwaffe, with both interceptor squadrons and AA under its command, does not need emphasis here.
FILENAME: IB-M49.txt
NUMBER OF HITS: 10
DATE ENTERED: 17/12/2015

TERM: AA/AT
SUBDOMAIN: Ordnance
PART OF SPEECH: acronym
WORDFORMS: AA/AT
DEFINITION: Antiaircraft/antitank.
DEFINITION SOURCE: IB-M17.txt.
CONTEXT SENTENCE: Until recently the largest caliber German antitank gun (not to be confused with the dual-purpose AA/AT gun or with the tank gun) was the 50-mm (see fig. 1).
FILENAME: IB-M22.txt
NUMBER OF HITS: 13
DATE ENTERED: 17/12/2014

TERM: AAF
SUBDOMAIN: Organization
PART OF SPEECH: acronym
WORDFORMS: AAF
DEFINITION: Army Air Forces.
CONTEXT SENTENCE: Recreation was considered worth a paragraph: "The Hotel Martinez in Cannes has been requisitioned by the AAF for flying personnel and deserving members of the ground crews.

DATE ENTERED: 22/12/2014

TERM: abatis
SUBDOMAIN: Logistics & Construction
PART OF SPEECH: noun
WORDFORMS: abatis, abatises
DEFINITION: An obstacle turned toward the enemy made of cut-down or fallen trees, or of small trees or saplings went down, often interlaced with barbed wire. A dead abatis is an obstacle made of cut-down or fallen trees; a live abatis is one made of small trees or saplings went down.
CONTEXT SENTENCE: In making a breach in abatis while under fire, first cut any wires, then cut the branches and remove them to one side.
FILENAME: IB-M31.txt
NUMBER OF HITS: 9
DATE ENTERED: 8/10/2014

TERM: Abwehr
SUBDOMAIN: Battles, Campaigns, and Leaders
PART OF SPEECH: noun
WORDFORMS: Abwehr
DEFINITION: The German Intelligence Service (Abwehr Dienst). It was composed of three main operational sections: Abwehr I, espionage and collection of operational intelligence; Abwehr II, subversion and sabotage; and Abwehr III, counterespionage and security.
DEFINITION SOURCE: IB-M47.txt.
SYNONYMS: Abwehr Dienst (German), German (Military) Intelligence Service (AE)
In 1944 he transferred from the infantry to Intelligence, his first assignment being the Abwehr school in Kamenz.

**TERM:** accelerator
**SUBDOMAIN:** Vehicles / Ordnance
**PART OF SPEECH:** noun
**WORDFORMS:** accelerator, accelerators
**DEFINITION:** 1. Pedal or lever for controlling the engine speed of motor-driven vehicles such as cars and trucks. 2. Part of the operating mechanism of certain types of automatic weapons which speeds up the action.

**TERM:** accompanying
**SUBDOMAIN:** Organization
**PART OF SPEECH:** adjective
**WORDFORMS:** accompanying
**DEFINITION:** Attached to, and moving with, an attacking force.

**TERM:** accompanying artillery
**SUBDOMAIN:** Organization / Ordnance
**PART OF SPEECH:** noun
**WORDFORMS:** accompanying artillery
**DEFINITION:** Single guns or separate artillery units moving with an attack unit to give immediate and close support.

**TERM:** accompanying guns
**SUBDOMAIN:** Organization / Ordnance
**PART OF SPEECH:** noun
**WORDFORMS:** accompanying guns
**DEFINITION:** The guns or batteries of an accompanying artillery unit.

**TERM:** accouterments
**SUBDOMAIN:** Logistics & Construction
**PART OF SPEECH:** noun
**WORDFORMS:** accouterments
**DEFINITION:** Soldier's equipment, with the exception of his weapons and clothing.

**CONTEXT SENTENCE:** When our tanks are within 200 to 300 yards of the antitank obstacles on our side of the German main defensive area, the German guns transfer their fire to the accompanying Soviet infantry.

**CONTEXT SENTENCE:** Not until the reintroduction of the pre-revolutionary stiff
shoulder boards (pognoy) in January 1943 was a separate classification of commanders revived, along with new and more resplendent uniforms and other accoutrements reminiscent of the old days.

TERM: **accuracy of bombing**  
SUBDOMAIN: Tactics & Strategy  
PART OF SPEECH: noun  
WORDFORMS: accuracy of bombing  
DEFINITION: See **precision bombing**.  
SYNONYMS: bombing accuracy, precision bombing  
CONTEXT SENTENCE: Either dazzle or glare makes the location of targets difficult and lessens the accuracy of bombing.

TERM: **accuracy of fire**  
SUBDOMAIN: Tactics & Strategy  
PART OF SPEECH: noun  
WORDFORMS: accuracy of fire  
DEFINITION: Closeness of grouping of shots around their center of impact.  
CONTEXT SENTENCE: These tactics, the Japanese admit, lessen the accuracy of antiaircraft fire.

TERM: **action**  
SUBDOMAIN: Tactics & Strategy / Ordnance  
PART OF SPEECH: noun  
WORDFORMS: action, actions  
DEFINITION: 1. An engagement or battle, usually one on a small scale. 2. The mechanism of a firearm involved in presenting the cartridge for firing and in ejecting the spent case and introducing a fresh cartridge.  
CONTEXT SENTENCE: (1) When an attack is in preparation, orders as a rule will be issued first to the heavy weapons, so that the attack will not be delayed while the heavy weapons are getting ready to come into action. (2) There are very few moving parts in the rifle. The bolt operates straight to the rear, and has no turning action. The locking action takes place when the locking lugs on the rear of the bolt are forced down into a locking recess by the bolt housing.
TERM: active defense
SUBDOMAIN: Tactics & Strategy
PART OF SPEECH: noun
WORDFORMS: active defense
DEFINITION: Resistance by the use of weapons. Active defense does not include camouflage, scattering of vehicles, etc., which are called passive defense.
CONTEXT SENTENCE: This principle of active defense at times has reached the scale of a counteroffensive; however, it is best illustrated in the persistent local counterattacks staged so often by units deployed on a regimental, battalion, or company front.
FILENAME: IB-M42.txt
NUMBER OF HITS: 2
DATE ENTERED: 3/3/2015

TERM: active duty
SUBDOMAIN: Organization
PART OF SPEECH: noun
WORDFORMS: active duty
DEFINITION: Military service with full pay and regular duties. Persons absent from duty on account of sickness, wounds, leave, or other lawful cause are considered as still in active duty. Also called active service.
SYNONYMS: active duty
CONTEXT SENTENCE: By the summer of 1941, the weight of the Pz.Kw. 3 had already been increased by additional armor, and it must have been clear to the Germans that future developments in armor and armament would necessarily involve still further increases in the weight of this tank.
FILENAME: IB-M49.txt
NUMBER OF HITS: 5
DATE ENTERED: 3/3/2015

TERM: additional armor
SUBDOMAIN: Vehicles
PART OF SPEECH: noun
WORDFORMS: additional armor
DEFINITION: Additional armor plates provided to armored vehicles to reduce the penetration of hollow-charge shells.
SYNONYMS: additional armour (BE)
CONTEXT SENTENCE: The present strength of the Red Army is near the 6,000,000 mark, and behind the men on active service are large numbers of reservists, many of whom are combat veterans of World War II.
FILENAME: IB-M49.txt
NUMBER OF HITS: 5

TERM: adjust
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: verb
WORDFORMS: adjust, adjusts, adjusting, adjusted
DEFINITION: Correct the elevation and deflection of a gun so that its projectile will hit the target.
Recoil is negligible, and range can be adjusted by varying the electric current.

NOTE: Adjusting the sights of a gun implies its correction as regard to elevation and deflection.

TERM: adjustment
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: noun
WORDFORMS: adjustment, adjustments
DEFINITION: See adjustment of fire.
SYNONYMS: adjustment of fire
CONTEXT SENTENCE: If the enemy attack penetrates the barrage, adjustment is made immediately to reduce the range 100 yards, thus forcing the enemy to advance through another curtain of mortar fire.

TERM: adjustment of fire
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: noun
WORDFORMS: adjustment of fire
DEFINITION: Correcting the elevation and deflection of a gun or regulating the moment when its projectile explodes, in order to bring the gunfire accurately on a particular point on the target; adjustment.
Adjustment of fire can be made from the data of previous shootings, or from maps, photographs, and aircraft observations.
SYNONYMS: adjustment
CONTEXT SENTENCE: Adjustment of fire is done only by very careful bracketing.

TERM: adjutant
SUBDOMAIN: Organization
PART OF SPEECH: noun
WORDFORMS: adjutant, adjutants
DEFINITION: Staff officer of a command who is responsible of all official correspondence except combat orders, for personnel and other records, for the distribution of orders, and for other administrative duties. The adjutant, first staff section, of brigades and lower units is referred to as S-1.
ABBREVIATION: adj
ACRONYM: S-1
CONTEXT SENTENCE: The model discussion is presented as a dramatic sketch in which a British officer, who is to command a combat team in an assault on a German-held town, confers with his adjutant; an artillery battery [U.S. battalion] commander, an antitank battery [U.S. battalion] commander, and a tank squadron [U.S. tank company] commander.

TERM: adjutant general
SUBDOMAIN: Organization
PART OF SPEECH: noun
WORDFORMS: adjutant general, adjutant generals
DEFINITION: Adjutant of a division or larger unit, or of a service command.
ACRONYM: AG
CONTEXT SENTENCE: A truck serving as an office for the adjutant general and quartermaster of the German 15th Armored Division was captured intact during the Libyan campaign.
TERM: **Adjutant General, the**
SUBDOMAIN: Organization
PART OF SPEECH: noun
WORDFORMS: the Adjutant General
DEFINITION: Chief of the Adjutant General's Department, who performs such administrative duties for the War Department and the Army as may be prescribed by law or delegated to him by the Secretary of War or the Chief of Staff, U.S. Army.
ACRONYM: TAG
CONTEXT SENTENCE: A letter dealing with "Destruction by Souvenir Hunters of Valuable Intelligence Data" was recently sent by the Adjutant General to the major commands, overseas theaters, and base commands.
FILENAME: IB-M33.txt

TERM: **administration**
SUBDOMAIN: Organization
PART OF SPEECH: noun
WORDFORMS: administrative
DEFINITION: Having to do with administration; managing military operations that are not strategic or tactical.
ABBREVIATION: adm
CONTEXT SENTENCE: There are certain administrative problems which must be covered. Chiefly the question of ammunition.
FILENAME: IB-M35.txt

TERM: **administrative march**
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: noun
WORDFORMS: administrative march, administrative marches
DEFINITION: Movement of troops and equipment in relative security for administrative reasons. An administrative march is often contrasted with a tactical march, which is made under combat conditions.
CONTEXT SENTENCE: Although a Flak (German antiaircraft artillery) unit in the field remains subordinate to the German Air Force in all matters of administration, it is operationally subordinate to the commander of the army unit to which it is attached.
FILENAME: IB-M21.txt

TERM: **admiral**
SUBDOMAIN: Organization
PART OF SPEECH: noun
WORDFORMS: admiral, admirals
DEFINITION: Officer in the Navy who has a rank equivalent to that of a general in the Army. A vice-admiral is equivalent in rank to a lieutenant general; a rear admiral to a major general.

CONTEXT SENTENCE: Although the scheme was ingeniously laid, Admiral Canaris (Chief of German Intelligence Service), the late Heinrich Himmler, and their colleagues did little clucking up their sleeves about Operation Easter Egg because it never successfully hatched.

FILENAME: IB-M47.txt

NOTE: In the context sentence, the term was written in capital letters.

NUMBER OF HITS: 1

DATE ENTERED: 3/3/2015

TERM: *advance*

SUBDOMAIN: Tactics & Strategy

PART OF SPEECH: noun, verb

WORDFORMS: advance, advances, advancing, advanced

DEFINITION: 1. The progress of a command toward the enemy. 2. To move forward. To make progress in the direction of the enemy.

ABBREVIATION: adv

CONTEXT SENTENCE: (1) During the advance the light machine guns operate well forward. (2) A number of British soldiers advanced toward the pillbox, and the occupants went into a huddle to try to figure out a means of escape.

FILENAME: IB-M13.txt, IB-M33.txt

NOTE: In British English the advance terminates upon contact with the enemy.

NUMBER OF HITS: N/A

DATE ENTERED: 14/7/2014

TERM: *advance by bounds*

SUBDOMAIN: Tactics & Strategy

DEFINITION: Move forward in a series of separate advances, usually from cover to cover. Troops advance by bounds while still beyond the range of effective enemy infantry fire.

CONTEXT SENTENCE: The groups advanced by bounds, moving from one hull-down position to another, and halting at each to shell and machine-gun the British positions.

TERM: anti-lifting device
SUBDOMAIN: Ordnance
PART OF SPEECH: noun
WORDFORMS: anti-lifting device, anti-lifting devices
DEFINITION: The Entlastungszünder was a simple yet deadly addition to the art of mine-laying. It was a cheap, clockwork anti-lifting device. A spring cap, held under pressure by the weight of the mine placed on top of the device, was activated when the pressure was released by removing the top mine. The clockwork mechanism then fired the detonator and booster charge, which detonated the device's main charge. This explosion then fired the top mine, causing casualties amongst troops clearing the minefield. The priming charge was 100g of HE.

TERM: Aryan
SUBDOMAIN: Battles, Campaigns & Leaders
PART OF SPEECH: noun
WORDFORMS: Aryan
DEFINITION: The Nazis use the term in a racial sense, and identify the German people with it. The German superiority is not an invention of the Nazis, who merely give great publicity to a theory that was popular back in the 19th century. In "Aryanism," with the Nazi trimmings, the German people have hit upon a kind of national religion, and one which helps them to forget that as a nation they have always been a political failure. In this religion the leaders are the state, and the state is god.
CONTEXT SENTENCE: It is his proudest belief that he belongs to "the German race" and that as a result he is something he calls an "Aryan."

TERM: battle drill
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: noun
WORDFORMS: battle drill
DEFINITION: A procedure by which a common line of approach to the battle problem of subordinate units is insured, as well as a common procedure within these units. A good system of battle drill, widely used, will permit the speeding up of the deployment and will enable the small unit to develop its maximum battle power quickly.
DEFINITION SOURCE: Author’s proposal.
CONTEXT SENTENCE: When all personnel are taught the same battle drill, there need be no changes in methods when reinforcements arrive or when casualties require substitutions in junior leaders.

TERM: battlefield discipline
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: noun
WORDFORMS: battlefield discipline
DEFINITION: The correct behavior of a soldier in battle. All tasks a soldier must fulfill in order to carry out his duties accordingly, both in the offense and in the defense.
DEFINITION SOURCE: Author’s proposal.
CONTEXT SENTENCE: You have placed your squads... You have told them all about the forthcoming battle, where they are, what they are doing, and with whom. They are in the ring, waiting. Now you think of your battlefield discipline. You must dispel the boredom of waiting and the fear of battle.

TERM: battlefield
SUBDOMAIN: Logistics & Construction
PART OF SPEECH: noun
WORDFORMS: battlefield, battlefields
DEFINITION: The piece of ground on which a battle is or was fought.
SYNONYMS: battle area, battle ground, field of battle
CONTEXT SENTENCE: Every infantry battalion must have a proper sniping organization, so that the battlefield may be dominated.

TERM: battle group
SUBDOMAIN: Organization
PART OF SPEECH: noun
WORDFORMS: battle group, battle groups
DEFINITION: A military force created to fight together, typically consisting of several different types of troops.
SYNONYMS: combat team (AE), flexible combat team (AE), Kampfgruppe (German), group (BE)
CONTEXT SENTENCE: For this purpose several units were formed into mobile battle groups, a procedure which had been resorted to on previous occasions, and which presumably is dictated by the stress of circumstances.

TERM: battle position
SUBDOMAIN: Logistics & Construction

TERM: bearing

SUBDOMAIN: Interdisciplinary

PART OF SPEECH: noun

WORDFORMS: bearing, bearings

DEFINITION: Expression of the horizontal direction of a point from an observer in terms of an angle, measured in degrees, from a line extending north and south through the observing point. The north-south line may be either true or magnetic north. Since the angle is measured east or west either from north or south, whichever gives the smaller angle, a bearing is never greater than 90 degrees. In modern military practices, expression of direction in terms of azimuth is preferred to a bearing.

SYNONYMS: azimuth (BE)

CONTEXT SENTENCE: It can be reset on successive bearings at night without the aid...
of a light—a great advantage over other compasses.

TERM: beaten zone
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: noun
WORDFORMS: beaten zone
DEFINITION: Area on the ground that is hit by the shots fired from a gun or battery. Because of gun vibration, differences in separate shells, changes in wind, etc., the shots fired in a series from a gun follow slightly different paths and strike at different points, covering a considerable area.
CONTEXT SENTENCE: However, there are two reasons why it is not advisable to site weapons on high points which overlook the general terrain; first the beaten zone is restricted, and, second, since the weapons cannot engage objectives within close range, the hostile forces can penetrate under the angle of fire.

TERM: beehive
SUBDOMAIN: Ordnance
PART OF SPEECH: noun
WORDFORMS: beehive, beehives
DEFINITION: A type of demolition charge used by the Allies.
DEFINITION SOURCE: IB-M35.txt.
CONTEXT SENTENCE: We'll have to use "beehives" to penetrate walls that tanks and antitank guns can't get at. Grenades can then be thrown through the gaps that have been created, and men can crawl through afterward.

TERM: belt
SUBDOMAIN: Ordnance / Logistics & Construction
PART OF SPEECH: noun
WORDFORMS: belt, belts
DEFINITION: 1. Cloth strip with loops, or a series of metal links with grips, for holding cartridges which are fed into an automatic gun. 2. Band of leather or webbing, worn around the waist and used as a support for weapons, ammunition, etc. 3. Strip of terrain, usually parallel to the front. 4. Line of obstacles used for defense. A line of wire entanglement is a belt. Two or more belts form a band.
SYNONYMS: (2) leather belt, (2) waist belt, (4) band
CONTEXT SENTENCE: (1) While firing is in progress, the bolt remains uncocked in the forward position, the belt is inserted into the belt pawl, and the gunner, remaining in the firing position, withdraws the cocking slide only with a strong jerk and pushes it forward again. (2) Cartridge pouches are attached to the belt. (3) Fundamentally, the defense of Berlin was based on three defensive belts, with intermediate strongpoints: the outer ring of defense along the line of lakes and canals: the ring of defense in the outskirts and suburbs; and an inner ring in the city proper. (4) This position had a narrow mine and trip-wire belt to the front.
Both the MG 34 and the MG 42 use the same ammunition, ammunition belt, and drum or belt box, and are handled and stripped in the same general manner.

Although high-explosive, armor-piercing high-explosive, armor-piercing, and incendiary ammunition are used, the belt loading is 75 percent armor-piercing when the aircraft is to attack armored vehicles.

Beretta is one of the oldest active firearms manufacturer in the world. Beretta manufactured rifles and pistols for the Italian military until the 1943 Armistice between Italy and the Allied forces during World War II. With the Wehrmacht's control of northern Italy, the Germans seized Beretta and continued producing arms until the 1945 German surrender in Italy.
The principal Italian machine carbine, which operates like the American Thompson submachine gun and fires pistol ammunition, is the Beretta, model 38: caliber, 9 mm; feed, box magazine fitted underneath the body.

**TERM:** bicycle
**SUBDOMAIN:** Vehicles
**PART OF SPEECH:** noun
**WORDFORMS:** bicycle, bicycles
**DEFINITION:** A vehicle composed of two wheels held in a frame one behind the other, propelled by pedals and steered with handlebars attached to the front wheel.
**DEFINITION SOURCE:** “Dictionary, Encyclopedia and Thesaurus.” The Free

**ABBREVIATION:** bcl

**CONTEXT SENTENCE:** Newly created Volksgrenadier divisions not only have a bicycle-mounted reconnaissance battalion or company, but also have an entire battalion of infantry mounted on bicycles.

**TERM:** bicycle patrol
**SUBDOMAIN:** Organization
**PART OF SPEECH:** noun
**WORDFORMS:** bicycle patrol, bicycle patrols
**DEFINITION:** A reconnaissance patrol which serves as the avant-garde of the whole unit. As a rule, the bounds for the mounted and bicycle patrols should be not more than 10 miles ahead of the main body of the reconnaissance unit. At night, if there is a good road system, bicycle patrols are excellent because they make little noise. Across country, their rate of advance may often be less than that of a man on foot. As a rule, bicycle patrols should be of company strength, since they are mainly confined to roads and are therefore required to fight more often than mounted patrols.

**DEFINITION SOURCE:** IB-M41.txt

**CONTEXT SENTENCE:** In districts with good road systems, and in favorable weather, bicycle patrols can get around better than mounted patrols.

**TERM:** bicycle troop
**SUBDOMAIN:** Organization
**PART OF SPEECH:** noun
**WORDFORMS:** bicycle troop, bicycle troops
**DEFINITION:** Bicycle infantry are infantry soldiers who maneuver on (or, more often, between) battlefields using military bicycles. Historically, bicycles lessened the need for horses, fuel and vehicle maintenance. Though their use has waned over the years in many armies, they continue to be used in unconventional armies such as militias.

TERM: complement
SUBDOMAIN: Organization
PART OF SPEECH: noun
WORDFORMS: complement
DEFINITION: 1. Full, authorized strength of a military unit or post, including officers, men, and materiel. 2. Extra units of various types attached to a given unit for adding its services or operations.
CONTEXT SENTENCE: (1) No standard organization is prescribed, but it is mentioned that each detachment should contain a balanced complement of infantrymen, engineers, scouts, signal personnel, and medical personnel. (2) It may be said that the antitank role now has assumed virtual priority, for experience has shown that the 88-mm gun has become an indispensable complement to the German Army's antitank artillery.

TERM: complete round
SUBDOMAIN: Ordnance
PART OF SPEECH: noun
WORDFORMS: complete round, complete rounds
DEFINITION: All the ammunition components needed to fire a gun once.

CONTEXT SENTENCE: The U.S. 60-mm mortar uses an H.E. shell against personnel and light materiel targets. The action of the fuze is superquick. For use in the field, it is issued assembled to the shell as a component of the complete round. To arm the fuze, it is necessary only to remove the cott er pin.

TERM: compo pack ration
SUBDOMAIN: Logistics & Construction
PART OF SPEECH: noun
WORDFORMS: compo pack ration, compo pack rations
DEFINITION: Canned or pre-packaged meal, easily prepared and eaten. See emergency ration.
SYNONYMS: emergency ration, iron ration

CONTEXT SENTENCE: Inasmuch as my tank units and your infantry units are working in close harmony anyway, all requests could be made by the infantry on their "18" sets, or verbally to individual tank commanders when they are going back to
pick up fresh supplies. Incidentally, we had better use "compo pack" rations until the situation becomes reasonably stable.

TERM: compulsory service
SUBDOMAIN: Logistics & Construction
PART OF SPEECH: noun
WORDFORMS: compulsory service
DEFINITION: Compulsory enrollment, especially for the armed forces; draft.
SYNONYMS: compulsory military service, draft
CONTEXT SENTENCE: Part-time basic and specialist military training is given continuously to all boys from the ages of 8 to 21, when they begin 18 months of compulsory service in the Army.

TERM: comradeship
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: noun
WORDFORMS: comradeship
DEFINITION: The company and friendship of others with common aims.
CONTEXT SENTENCE: The more capable and enduring must lead and direct the weak and inexperienced. Such is the basis from which a feeling of genuine comradeship may develop. This is as important between the leader and his men as it is among the men themselves.

TERM: concealment
SUBDOMAIN: Tactics & Strategy
PART OF SPEECH: noun
WORDFORMS: concealment
DEFINITION: 1. The state or condition of being hidden from the enemy’s view. 2. Any object affording protection from the view of the enemy.
CONTEXT SENTENCE: (1) Reconnaissance at night is mostly a question of watching roads and keeping the enemy under observation from such concealment as woods and farms. (2) In open terrain German tanks often operate near buildings which offer the best — sometimes the only — concealment, as well as a certain amount of protection.

TERM: concealment discipline
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: noun
WORDFORMS: concealment discipline
DEFINITION: See camouflage discipline.
SYNONYMS: camouflage discipline

CONTEXT SENTENCE: The following points regarding concealment discipline should be noteworthy:

a. No talking above a whisper by any one.
b. Don't use trails or paths...

TERM: concentration

SUBDOMAIN: Tactics & Strategy
PART OF SPEECH: noun
WORDFORMS: concentration, concentrations

DEFINITION: 1. An assembly of troops in a particular locality, on mobilization, for training, attack, or defense. 2. The amount of toxic chemical vapor in a given volume of air at any particular time and place. 3. A volume of fire placed on an area within a limited time.

ABBREVIATION: conc

SYNONYMS: (3) concentration fire (AE), (3) fire concentration (AE), (3) massed fire (BE)

CONTEXT SENTENCE: (1) A concentration must never be permitted within a sector dominated by the opposition. Concentrations must not only be covered, but protected from the air. (2) The use of an outside track guide, however, causes a tendency to throw the track during sharp turns. A further drawback is the high rate of air flow through the vehicle, which should make it very difficult to operate during a smoke concentration. (3) But when the whole company fires a concentration on one target, the preparation of firing data again becomes the responsibility of the company commander.

SUBDOMAIN: Organization
PART OF SPEECH: noun
WORDFORMS: corridor, corridors
DEFINITION: A compartment of terrain of which the longer dimension lies generally in the direction of movement of a force, or leads toward an objective.
SYNONYMS: terrain corridor
The Germans do not pull out in daylight, even when they have practically been surrounded. They fight like tigers to hold a narrow escape corridor, through which they try to withdraw at night.

**TERM:** Cossack
**SUBDOMAIN:** Organization  
**PART OF SPEECH:** noun  
**WORDFORMS:** Cossack, Cossacks
**DEFINITION:** A member of a people of southern Russia and Ukraine, noted for their horsemanship and military skill.

Beginning in the summer of 1942, as a part of the German policy of employing ex-Soviet personnel (prisoners of war and deserters), a number of independent Cossack cavalry squadrons and troops were formed under the First Panzer Army in southern Russia.

**TERM:** counteramphibious  
**SUBDOMAIN:** Tactics & Strategy  
**PART OF SPEECH:** adjective  
**WORDFORMS:** counteramphibious
**DEFINITION:** Measures intended to destroy the effectiveness of a military amphibious attack.
**DEFINITION SOURCE:** Author’s proposal

**CONTEXT SENTENCE:** (1) This counterattack was one of 17 such assaults the Germans launched during an 11-day period. The units staging these attacks varied in strength from a company to a battalion. (2) Earlier in the day, when elements of B Company were counterattacking to restore a part of A Company's position, they had occasion to fire at a haystack and out wobbled a Pz. Kw. 6.

**TERM:** counterattack  
**SUBDOMAIN:** Tactics & Strategy  
**PART OF SPEECH:** noun, verb  
**WORDFORMS:** counterattack, counterattacks, counterattacking, counterattacked
**DEFINITION:** 1. Attack by a part or all of a defending force against an enemy attacking force, for the purpose of regaining ground lost or of cutting off or destroying enemy advance units. It is mostly a defensive action with only temporary and local offensive action to seize limited objectives. A counterattack differs from counteroffensive, which is an aggressive action on a large scale, undertaken by a defending force to seize the initiative from the attacking force. 2. Make such an attack.

**SYNONYMS:** counter-attack (BE), counterthrust (AE/BE)

**CONTEXT SENTENCE:** German Leaders Failed to Recognize a New Counteramphibious Tactic. One of the most hushed up secrets of the war, back before the surrender of Japan, was the damage and inconvenience caused by the suicide-bent Kamikaze pilots of the Japanese Air Force.
SYNONYMS: counterattack (AE), counterthrust (AE/BE)
CONTEXT SENTENCE: These six tanks were immediately used in a counter-attack. We succeeded in driving the enemy from the high ground and in reoccupying it.

TERM: dazzle
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: noun
WORDFORMS: dazzle
DEFINITION: Dazzle is the blinding of persons in a plane caught in the direct light rays of one or more searchlights. The extent of dazzle is determined by the height of the plane, the number of searchlights concentrated on it, weather conditions, the direction of the light beams, and, to some degree, by the reactions of persons in the plane.

CONTEXT SENTENCE: Far more dazzle is produced if the plane is traveling in the general direction of the beam or beams. The British find that when a bomber pilot gets into one of these areas, he must keep his head down and fly by instruments, so as not to allow the light to blind and confuse him.

applies equally to artillery and infantry.

TERM: defense zone
SUBDOMAIN: Logistics & Construction
PART OF SPEECH: noun
WORDFORMS: defense zone, defense zones
DEFINITION: See defensive zone.
SYNONYMS: defended locality (BE), defensive belt (AE), defensive zone (AE)
CONTEXT SENTENCE: After demolition of the obstruction, the tanks then rushed forward and tried to get past the enemy defense zone, while the infantry cleared the enemy from the zone itself.

TERM: defensive
SUBDOMAIN: Tactics & Strategy
PART OF SPEECH: noun, adjective
WORDFORMS: defensive
DEFINITION: 1. Condition of a force when it stands ready to protect itself and its positions against enemy attack. 2. Resisting attack. Defensive warfare is opposed to offensive warfare. 3. Suitable for defense; meant for protection; as, a defensive position, a defensive weapon.
SYNONYMS: defended area (AE), defended locality (BE), defense area (AE)
CONTEXT SENTENCE: The Germans site most of their antitank weapons to the rear of the forward edge of their main defensive area. Only single guns are sited along the forward edge; their mission is to engage individual tanks.

TERM: defensive belt
SUBDOMAIN: Logistics & Construction
PART OF SPEECH: noun
WORDFORMS: defensive belt, defensive belts
DEFINITION: See defensive zone.
SYNONYMS: defense zone, defensive zone
CONTEXT SENTENCE Fundamentally, the defense of Berlin was based on three defensive belts, with intermediate strongpoints: the outer ring of defense along the line of lakes and canals: the ring of defense in the outskirts and suburbs; and an inner ring in the city proper.
TERM: defensive fire
SUBDOMAIN: Tactics & Strategy
PART OF SPEECH: noun
WORDFORMS: defensive fire
DEFINITION: Fire delivered by supporting units to assist and protect a unit engaged in a defensive action.

TERM: defensive measures
SUBDOMAIN: Logistics & Construction
PART OF SPEECH: noun
WORDFORMS: defensive measures
DEFINITION: The protection of positions against frontal attack by means of short narrow belts of antipersonnel mines and trip wires 30 to 40 yards forward of the positions and just beyond effective hand-grenade range. In a number of other instances, however, the Germans have been known to place a belt of mines within hand-grenade range so as to take advantage of any confusion which might result from the detonation of the mines.
CONTEXT SENTENCE: If time permits, defensive measures are tested, and defensive action is rehearsed, on the basis of theoretical Allied attacks. This, of course, is a customary practice for all units throughout the German Armed Forces.
TERM: defensive position
SUBDOMAIN: Logistics & Construction
PART OF SPEECH: noun
WORDFORMS: defensive position, defensive positions
DEFINITION: Area occupied by troops organized in a system of mutually supporting defense areas or fortified tactical localities.
SYNONYMS: defended post (BE), defensive post (AE)
CONTEXT SENTENCE: When patrols are sent out to locate the German defensive positions, the Germans do not fire on these patrols if they can avoid it, but let them go on through.

TERM: defensive post
SUBDOMAIN: Logistics & Construction
PART OF SPEECH: noun
WORDFORMS: defensive post, defensive posts
DEFINITION: See defensive position.
SYNONYMS: defended post (BE), defensive position (AE)
CONTEXT SENTENCE: Small detachments infiltrate, engage defensive posts from flank or rear, and cut telephone wires.

TERM: defensive zone
SUBDOMAIN: Logistics & Construction
PART OF SPEECH: noun
WORDFORMS: defensive zone
DEFINITION: A belt of terrain, generally parallel to the front, which includes two or more organized or partially organized battle positions.
SYNONYMS: defended locality (BE), defense zone (AE), defensive belt (AE)
CONTEXT SENTENCE: Towards dusk, detachments of Panzer Grenadiers move forward in front of the main line of resistance to create an impression that the edge of the defensive zone is further forward.

TERM: defilade
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: noun
WORDFORMS: defilade
DEFINITION: Protection from hostile ground observation and fire provided by a mask. Vertical distance by which a position is concealed from enemy observation.
DEFINITION SOURCE: United States,
Harassing fire is placed on areas affording defilade, and wherever the enemy has seen, or suspects, considerable grouping or movement.

Every effort will be made to discover and use defiladed terrain features, or other soft spots in the defensive fire pattern, where attacking troops may move through the final protective line.

On the march, platoons are generally spaced at intervals along the column, or are sited at particularly vulnerable points along the route—such as bridges, defiles, or crossroads—and subsequently "leapfrog" forward.

The total traverse is 600 mils (33º 45') that is, 300 mils (16º 52' 30") each side of zero. Fine adjustments are made by rotation of the traversing handwheel until the required deflection is indicated on the scale. The lateral deflection scale, graduated in conventional mils from 0 to 6,400, is equipped with a sliding scale beneath it to facilitate traverse readings. From the definition of a mil as that angle which at any range subtends 1/1000 of the range, errors in deflection can readily be estimated and corrected.
TERM: deflection shift
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: noun
WORDFORMS: deflection shift, deflection shifts
DEFINITION: A change in the deflection setting.
CONTEXT SENTENCE: It is not unusual for the mortar company commander then to assign separate fire missions to his platoons, particularly if several targets have previously been marked for destruction. In such cases, platoon commanders prepare additional firing data of their own, including such things as range determination, charge selection, and the determination of angle of fire and deflection shifts.

TERM: depression
SUBDOMAIN: Training & Doctrine / Interdisciplinary
PART OF SPEECH: noun
WORDFORMS: depression
DEFINITION: 1. Lowering the muzzle of a gun, especially below the horizontal, by means of the elevating mechanism. 2. Region of low barometric pressure surrounded by higher pressures.

CONTEXT SENTENCE: (1) The elevating gear is operated by a handwheel on the left side of the
carriage. It allows 27 degrees for elevation and 18 degrees for depression.

TERM: depth
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: noun
WORDFORMS: depth
DEFINITION: 1. Space from front to rear of any formation or position, including the front and rear units. 2. Height from the bottom of a trench to the ground level.

CONTEXT SENTENCE: (2) A firing position that can be readily assumed remains the first consideration. The depth of the excavations for arms or weapons depends on the required firing height. Dimensions must also be adjusted to conform to the height of the riflemen.

TERM: dereliction of duty
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: noun
WORDFORMS: dereliction of duty, derelictions of duty
DEFINITION: Deliberate, conscious, or wilful neglect.

CONTEXT SENTENCE: It is apparent that many [British] units in Tunisia and Italy, especially those with training and experience in desert warfare, have not appreciated the necessity for employing camouflage techniques and disciplinary measures radically different from those used in desert areas.

TERM: deserter
SUBDOMAIN: Organization
PART OF SPEECH: noun
WORDFORMS: deserter, deserters
DEFINITION: Person who deserts.

CONTEXT SENTENCE: Beginning in the summer of 1942, as a part of the German policy of employing ex-Soviet personnel (prisoners of war and deserters), a number of independent Cossack cavalry squadrons and troops were formed under the First Panzer Army in southern Russia.
TERM: designate
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: verb
WORDFORMS: designate, designates, designating, designated
DEFINITION: Give an official name to a unit of troops.
CONTEXT SENTENCE: As in our own army, paratroopers in the Red Army enjoy the status of elite organizations, special privileges, and extra pay. PART OF SPEECH: noun
WORDFORMS: detonation, detonations

DEFINITION: Sudden and violent explosion. Detonation is practically instantaneous; the slower burning of some explosives is called deflagration.

CONTEXT SENTENCE: Gaps are usually closed by means of two or three rows of Teller mines, with boards placed on one or
all of the rows to insure detonation of mines if a vehicle attempts to pass through.

TERM: detonator
SUBDOMAIN: Ordnance
PART OF SPEECH: noun
WORDFORMS: detonator, detonators
DEFINITION: Powder charge or electric device in a projectile, mine, etc., that is used to set off the main charge.

CONTEXT SENTENCE: A rubber plug is cemented in the bottle neck and holds the simple fuze. This detonator is no more than a blasting cap crimped on to a five-second length of fuze. The other end of the fuze, which is outside the rubber plug, is covered with a match-head composition.

TERM: detrucking area
SUBDOMAIN: Logistics & Construction
PART OF SPEECH: noun
WORDFORMS: detrucking area, detrucking areas
DEFINITION: Area that includes all the points in a given locality at which troops, their equipment, and supplies are unloaded from trucks.

CONTEXT SENTENCE: British small-arms or light antiaircraft fire has five main objectives, as follows: .... To protect columns of troops and matériel, or entrucking and detrucking areas. Motor trucks in columns are usually the most vulnerable targets to low-flying air attacks.

TERM: develop
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: verb
WORDFORMS: develop, develops, developing, developed
DEFINITION: 1. Break up a command from a mass or marching formation into a number of smaller groups, in preparation for action. 2. Uncover or make clear; work out in detail; as, to develop the position, intention, and strength of the enemy.

CONTEXT SENTENCE: (1) In addition, he often directs at least one column (containing tanks, artillery, and motorized infantry) on some important locality in our area, such as a tank repair center. There may be more than one of these thrusts. As a rule, the Germans try to develop them into a pincer movement, with the advance columns pushing ahead to meet at the final objective. (2) A good system of battle drill, wisely used, will permit the speeding up of deployment and will enable the small unit to develop its maximum battle power quickly.

TERM: development
SUBDOMAIN: Tactics & Strategy
PART OF SPEECH: noun
WORDFORMS: development, developments
DEFINITION: 1. Breaking up a command from a mass or marching formation into a number of smaller columns or groups, in preparation for action. 2. Seizing and organizing terrain in preparation for action.

CONTEXT SENTENCES: (1) Normally, the development of a regiment is by battalions (see fig. 10). If necessary,
distances between battalions are increased. When a high state of preparedness is necessary, the battalion itself may "shake out" into companies. (2) At the time of the development, the battalion commander moves with the forward elements from one prominent terrain feature to another. He generally sends special reconnaissance patrols ahead, or reconnoiters the hostile position himself from a commanding terrain feature.

TERM: deviation
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: noun
WORDFORMS: deviation, deviations
DEFINITION: 1. Distance of a point of impact from the target. Deviation is measured by an angle or by linear measure. 2. Error in a compass whose needle does not point directly to the magnetic north, because of the magnetism of surrounding objects. In this meaning, also called magnetic deviation.
SYNONYMS: (1) line error (BE), (2) magnetic deviation (AE)
CONTEXT SENTENCE: (1) Deviation. - Line error. (2) The sun compass, being liable to no errors, has long been used at sea for checking the deviation of the ship's magnetic compass. The sun's azimuth throughout the day for all latitudes and declinations are given in azimuth tables.

TERM: dig in
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: verb
WORDFORMS: dig in, digs in, digging in, dug in
DEFINITION: Dig or improve fox holes or other intrenchments, for immediate defense.
SYNONYMS: dig-in
CONTEXT SENTENCE: Our troops who have dug themselves in well have suffered very few casualties, whereas companies which have abandoned their positions have had much greater losses. For this reason it is essential to dig in deeply and quickly, using every possible means.

TERM: diary
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: noun
WORDFORMS: diary, diaries
DEFINITION: Detailed daily account of a unit's activities, kept by a staff officer of the unit for future reference.
SYNONYMS: (1) line error (BE), (2) magnetic deviation (AE)
CONTEXT SENTENCE: From the diary of a British junior officer: During 6 April, shelling of my platoon was only fairly frequent. In the course of half an hour, we counted 16 shells in the immediate vicinity of the post. We counted 80 to 100 shells in, or near, this small area alone before the end of the day.
Enemy firing positions are mutually supporting. The trenches are usually well dug-in and are about 4 feet deep. The dirt is sometimes scattered, but I've noticed that the dirt is generally used to form an embankment beside the trench.

TERM: dim light
SUBDOMAIN: Logistics & Construction
PART OF SPEECH: noun
WORDFORMS: dim light, dim lights
DEFINITION: Lights used in the Army to indicate the width of the vehicle's rear as well as its front. Each of the side rear lights has two windows, one above the other. The upper one shows a dim light and the lower one a normal light. A shutter is provided to shut out either of the lights so that only one can show at a time.

CONTEXT SENTENCE: A night ruse prescribed by the German Army involves the spacing of partly dimmed lights at regular intervals along a road, to draw the attention of hostile night reconnaissance away from an actual German column which is moving in complete darkness.

TERM: direct fire
SUBDOMAIN: Tactics & Strategy
PART OF SPEECH: noun
WORDFORMS: direct fire
DEFINITION: Fire in which the sights of a weapon are brought directly in line with the target; fire by direct laying.
SYNONYMS: fire by direct laying
CONTEXT SENTENCE: "Supporting weapons, such as tanks, which have been placing direct fire on pillbox apertures should cease fire without signal as soon as the infantry comes within 25 yards of the pillbox."

TERM: direct hit
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: noun
WORDFORMS: direct hit, direct hits
DEFINITION: Projectile striking exactly on the target.
CONTEXT SENTENCE: Such villages consist of closely packed houses with narrow streets between them. The houses themselves have thick walls and are immune to shellfire, except in the case of a direct hit. The enemy realizes this and makes full use of them as
strong points, firing from windows and improvised loopholes.

TERM: **direct-laid weapon**  
SUBDOMAIN: Ordnance  
PART OF SPEECH: noun  
WORDFORMS: direct-laid weapon, direct-laid weapons  
DEFINITION: See direct laying.  
CONTEXT SENTENCE: Thanks to its range, and to the lack of cover in target areas, the gun could open instant and effective fire as soon as hostile infantry or vehicles were detected on the crests of surrounding hills, or in the defiles between them. While the Pak 43 on this carriage offers formidable opposition for armored vehicles and direct-laid weapons, its light shield (two thicknesses of 5 mm each) gives no side and rear protection for the gun crew.

TERM: **director**  
SUBDOMAIN: Logistics & Construction / Organization  
PART OF SPEECH: noun  
WORDFORMS: director, directors  
DEFINITION: 1. Mechanical device that continuously calculates firing data for use against an airplane or other moving target. In this meaning, also called data computer. 2. Supervisor, as, the director of maneuvers or the director of an administrative office. 3. Officer in the Army Nurse Corps who has a rank equivalent to that of a captain. 4. Officer in charge of the Women's Army Corps (WAC). She holds the grade of colonel.  
ABBREVIATION: dir  
SYNONYMS: (1) data computer, (1) director control  
CONTEXT SENTENCE: (1) A scheme of night barrage should be thought out. Flash will definitely blind the layer at the forward area sight. Director should be able to lay continuously on an illuminated target. However, a night barrage scheme to suit the layout is recommended. (2) Neither the suicide weapon, nor adequately trained suicide pilots were available, greatly
because of the mishandling the whole program had received from its selfish or uninterested directors. The disappointment of the volunteer group was profound. Within 6 or 7 days after D-day, they realized that the invasion was a success, and that the moment for which they had been preparing had passed.

TERM: director control
SUBDOMAIN: Logistics & Construction
PART OF SPEECH: noun
WORDFORMS: director control
DEFINITION: See director (1).
CONTEXT SENTENCE: Hilly country gives ideal protection for director control, inasmuch as most guns are emplaced in hillsides, and protection of the guns’ dead arc is insured. But the difficulty of sighting in time is a great disadvantage.

TERM: direct support

TERM: dispersal
SUBDOMAIN: Tactics & Strategy
PART OF SPEECH: noun
WORDFORMS: dispersal
DEFINITION: Relocation of forces for the purpose of increasing survivability. See also dispersion (2).
SYNONYMS: (2) dispersion
On marches, at halts, in rest areas, while alerted, when attacking, or when defending—the leader must remember to keep his units deployed, to disperse columns and marching groups, and to maintain a proper distance between groups, as well as dispersal to the flanks.

TERM: dispersion
SUBDOMAIN: Training & Doctrine / Tactics & Strategy
PART OF SPEECH: noun
WORDFORMS: dispersion
DEFINITION: The distribution of a series of rounds fired from one weapon or a group of weapons under conditions as nearly identical as possible; the points of burst or impact being dispersed about a point called the mean point of impact.
SYNONYMS: (1) dispersion pattern, (2) dispersal

CONTEXT SENTENCE: If the gun is merely put 200 to 300 yards forward or to the rear, it may deceive as to the location of the other guns the battery, but it also will bring the battery position within the 100-percent zone of fire[1] directed against the roving gun. All ranging and harassing fire can be carried out by these guns.

TERM: distant reconnaissance
SUBDOMAIN: Tactics & Doctrine
PART OF SPEECH: noun
WORDFORMS: distant reconnaissance
DEFINITION: Exploration of objectives that lie outside immediate striking range of a force, but about which detailed information is essential for military planning. Study of regions near at hand is called close reconnaissance.
CONTEXT SENTENCE: German doctrine has always laid great emphasis on strong and aggressive reconnaissance at all echelons as a basis for dispositions and operations. This ranged from distant strategic reconnaissance by air forces and by large cavalry or motorized units to constant local patrolling by groups of four or five men from a rifle platoon.

TERM: **distribution**
SUBDOMAIN: Training & Doctrine / Tactics & Strategy
PART OF SPEECH: noun
WORDFORMS: distribution
DEFINITION: 1. Arrangement of troops for a purpose, such as battle, march, or maneuver. 2. Pattern of projectiles about a point. 3. Planned spread of fire to cover a desired frontage or depth. 4. Official delivery of anything, such as orders or supplies.
CONTEXT SENTENCE: (1) "We would certainly have been better off if a good many things had been different as regards the distribution of forces." (3) The security-force commander will arrange for construction of defensive positions in areas suitable for
airborne landings and in the vicinity of vital points which hostile airborne forces may try to capture. The commander also will make a proper tactical distribution of antiaircraft units and of other troops necessary to the defense. (4) Reinforcement by air-landing troops is the first use to which an improvised field is put. Supplies which cannot be dropped are landed next. After this, the Germans try to establish an organized supply system, which will include full protection of the supplies arriving and an orderly distribution to the troops.

TERM: district
SUBDOMAIN: Logistics & Construction
PART OF SPEECH: noun
WORDFORMS: district, districts
DEFINITION: Geographical subdivision of a military area in a service command. A district is set up for the purpose of administering the various organizations established within it. Usually called military district.
ABBREVIATION: dist
SYNONYMS: military district
CONTEXT SENTENCE: With the Nazi Party in charge of organizing the Volkssturm, the early stages in the development of this national militia have been expedited. Although each Gauleiter, or Nazi District Leader, is charged with the leadership, enrollment, and organization of the Volkssturm in his district, the largest Volkssturm unit seems to correspond to the next smaller territorial subdivision of the Nazi Party organization—the Kreis.

TERM: dive bomber
SUBDOMAIN: Vehicles
PART OF SPEECH: noun
WORDFORMS: dive bomber, dive bombers
DEFINITION: Bomber that releases its bomb load just before it pulls out of a dive toward the target.
SYNONYMS: dive-bomber (AE/BE), Stuka (German)
CONTEXT SENTENCE: Dive bombers have been employed extensively against ground troops and fixed defensive positions, often producing panic among troops who were facing them for the first time.
SYNONYMS: dive bomber (AE/BE), Stuka (German)
CONTEXT SENTENCE: Experience has taught the British that small-arms fire is most effective against dive-bombers when they are diving towards the weapons or pulling out of a dive.

TERM: division artillery
SUBDOMAIN: Organization / Ordnance
PART OF SPEECH: noun
WORDFORMS: division artillery
DEFINITION: Artillery that is permanently an integral part of a division. For tactical purposes, all artillery placed under the command of a division commander is considered division artillery.
CONTEXT SENTENCE: The most important role of the assault battery in defense appears to be in support of counterattacks. However, in special instances, they have been used as artillery to reinforce the division artillery.
TERM: division headquarters
SUBDOMAIN: Organization
PART OF SPEECH: noun
WORDFORMS: division headquarters
DEFINITION: A self-contained organization. It consists of the division command group, a main CP, a tactical command post, a mobile command group, and a supporting division headquarters battalion with the signal and sustainment necessary for the division headquarters to function. The division is not a fixed formation.
ABBREVIATION: DHQ
CONTEXT SENTENCE: Communication by telephone and radio was always maintained between the observation posts and the command post. It is believed that there may also have been an additional radio link between the command post and division headquarters.
NOTE: The definition has been based on that of Signal Corps, and on that of division artillery.

TERM: Do
SUBDOMAIN: Vehicles
PART OF SPEECH: abbreviation
WORDFORMS: Do
DEFINITION: Dornier Flugzeugwerke, German aircraft manufacturer founded in 1914 by Claudius Dornier. See Dornier 217.
SYNONYMS: Dornier
CONTEXT SENTENCE: The maximum bomb load of the improved plane is about 6,600 pounds, several times greater than the Do 215. Little change has been made in the armor. The addition of tail dive-brakes is one of the most interesting improvements found on the Do 217 E.

TERM: dogfight

TERM: drill
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: noun, verb
WORDFORMS: drill, drills, drilling, drilled
DEFINITION: 1. Exercises and movements taught and practiced to develop skill in marching, and to develop control, discipline, and teamwork. 2. Practice a sequence of acts for learning purposes.
Drill accustoms the individual to formations which are indispensable to the proper appearance of an outfit. It teaches orderliness and military bearing, and, if used correctly, increases the self-confidence of the troops. Nevertheless, drill should take up only a limited amount of time. The elements of the task force are so drilled that they will lose their identity as separate units and merge into a smooth-working task-force combat team. As a result of this joining together of units, the Germans stress cooperation, with every man and unit doing a definite job.

PART OF SPEECH: noun
WORDFORMS: dual-purpose weapon, dual-purpose weapons
DEFINITION: A weapon designed for delivering effective fire against air or surface targets.
SYNONYMS: double-purpose weapon
The high velocity of antiaircraft guns makes them suitable for antitank missions, and, since 1940, German designers have paid special attention to the possibility that any German antiaircraft gun may be used as a dual-purpose weapon. The smaller guns --the 20-mm 2-cm Flak 30 and 38, and the 37-mm 3.7-cm Flak 18 and 36-- are now of little value in an antitank role because of their lack of power.

TERM: dugout
SUBDOMAIN: Logistics & Construction
PART OF SPEECH: noun
WORDFORMS: dugout, dugouts
DEFINITION: Underground shelter built to protect troops, ammunition, and materiel from gunfire.

CONTEXT SENTENCE: Dugouts for personnel and supplies are constructed to the rear of the forward positions, and are connected with the positions by communication trenches.

TERM: dummy
SUBDOMAIN: Ordnance / Training & Doctrine / Logistics & Construction
PART OF SPEECH: noun
WORDFORMS: dummy, dummies
DEFINITION: 1. Having no explosive charge. Dummy ammunition is used in practice. 2. Figure used to represent an enemy in bayonet and saber practice. 3. False building, emplacement, etc., used to deceive the enemy. In this meaning, also called dummy installation.

SYNONYMS: (3) dummy construction, dummy emplacement, (3) dummy installation, (3) dummy structure

CONTEXT SENTENCE: The Germans attempt to devise dummy constructions which will divert the opposition's attention and upset its fire plan. They are erected at the same time as actual installations, and are given an almost convincing camouflage treatment.

TERM: dummy construction
SUBDOMAIN: Logistics & Construction
PART OF SPEECH: noun
WORDFORMS: dummy construction, dummy constructions
DEFINITION: See dummy installation.
SYNONYMS: (3) dummy, dummy emplacement, dummy installation, dummy structure

CONTEXT SENTENCE: He used his artillery (including 88's firing frontally) at extreme range to hold up the British Eighth Army's advance and to force it to deploy. He used mines (including dummy minefields) effectively for the same purpose.

TERM: dummy emplacement

PART OF SPEECH: noun
WORDFORMS: dummy emplacement, dummy emplacements
DEFINITION: See dummy installation.
SYNONYMS: (3) dummy, dummy construction, dummy installation, dummy structure
The Germans remove excavated earth at night or in bad weather. It is either removed a considerable distance, or is used in the construction of dummy emplacements. (See paragraph 8.) If it is left near the site, it is made to conform with the ground pattern.

**DEFINITION:** False building, emplacement, etc., used to deceive the enemy. A dummy installation may draw fire away from real targets, weaken enemy fire by spreading it, or delay and confuse the enemy. Also called dummy.

**SYNONYMS:** (3) dummy, dummy construction, dummy emplacement, dummy structure

**CONTEXT SENTENCE:** "Dummy installations," the Japanese manual states, "are built to present the same external appearance as real construction, and camouflage is always applied."

Dummy man

**DEFINITION:** Weight attached to a parachute that approximates the weight of a living man, in tests of equipment.

**SYNONYMS:** dummy parachutist, parachute dummy

**CONTEXT SENTENCE:** Hostile forces sometimes try to make a display of force by dropping dummy men and materiel. The genuineness of these must be determined at once.

**TERM:** **hollow charge**  
SUBDOMAIN: Ordnance  
PART OF SPEECH: noun  
WORDFORMS: hollow charge, hollow charges  
DEFINITION: The principle of the hollow charge is well known. Low-velocity weapons merely have to throw their hollow-charge projectiles against an armor surface. On striking the armor, the light streamlined cap of the shell is crushed. The explosive then exerts a concentrated force against a small area of the armor. The concentrated blast which results is intended to effect a penetration of the tank armor.  
DEFINITION SOURCE: IB-M37.txt.  
CONTEXT SENTENCE: The conical head of the grenade is filled with a hollow charge designed to direct the force of explosion in one direction—against the armor plate of the target.

WORDFORMS: interval, intervals
DEFINITION: Space between individuals or elements of the same line.
TERM: interval-judging device
SUBDOMAIN: Vehicles
PART OF SPEECH: noun
WORDFORMS: interval-judging device, interval-judging devices
DEFINITION: The interval-judging device has four small windows, rectangular in shape and grouped in pairs. When the device is working, a yellowish green light shines through the windows. The use of the interval-judging device is based on the way the human eye sees lights at different distances. When viewed from a certain distance, lights close to each other appear to be just one light. In a convoy all drivers except the first one keep an interval so that two of the lights are always visible. In other words, they maintain a distance of 35 to 40 yards.
CONTEXT SENTENCE: For instance, at 325 yards the lights shining through the four rectangular openings in the interval-judging device will seem to be only one light.

WORDFORMS: jumping area, jumping areas
DEFINITION: See jump area.
SYNONYMS: jump area, landing area
A battalion of parachutists needs a jumping area of 800 by 300 yards.

There was also a need to use the troopers as elite infantry in a purely ground role during the critical periods prior to 1944, and the airborne soldiers suffered very high losses in bitter combat, thus shortening the supply of experienced jumping personnel.

After proper physical conditioning, the candidate works from a jumping tower, practicing landing methods under different conditions.

The German Army emphasizes that the skill and leadership of junior commanders are severely tested in mountain warfare inasmuch as forces will generally be split into relatively small groups.

TERM: life belt
SUBDOMAIN: Logistics & Construction
PART OF SPEECH: noun
WORDFORMS: life belt, life belts
DEFINITION: A life preserver in the shape of a belt.
DEFINITION SOURCE: ‘Oxford Dictionaries - Dictionary, Thesaurus, &
Some time during the morning my remaining hand paddle slipped off in the water and, forgetting that I had my life belt inflated, I jumped overboard to retrieve it.

I couldn't understand why I didn't come to the surface—then I remembered that I hadn't pulled the CO2 (carbon dioxide) strings of my life jacket.

Recruits at the San Diego station are also trained to remove their trousers while in the water and prepare them for life preservers. The trousers are slipped off and the overhand knot is tied in the end of each trouser leg.

Failure in this case was ascribed to the fact that the troopers were inadequately armed, and to insufficient training of the pilots making the lift. (2) To open fire, the launcher is lifted above ground level, and then is brought back into the trench for reloading.

The term "life jacket" is a device made of buoyant or inflatable material, typically a sleeveless jacket for keeping a person afloat in water. It is also known as a life preserver, which is a device made of buoyant or inflatable material to keep someone afloat in water. A life raft is a raft used in an emergency at sea, typically inflatable and designed to keep people afloat in the water. A lift is an upward force due to buoyancy or aerodynamic pressure, used to elevate the muzzle of a gun.

TERM: Mills grenade
SUBDOMAIN: Ordnance
PART OF SPEECH: noun
WORDFORMS: Mills grenade, Mills grenades
DEFINITION: Mills grenade No. 36 was developed during the First World War by British industry and was called the Mills Bomb. It had a delay time of 4 or 7 seconds depending on the version. For the Second World War, only 4-second versions were produced to equip the British army. Its jagged shape could produce a very large number of fragments during the explosion, causing a maximum of damage.
SYNONYMS: Mills Bomb (BE), Mills grenade No. 36 (BE)
CONTEXT SENTENCE: Since they are of this type, they depend on blast effect, instead of on fragmentation of the casing, as in the U.S. "defensive-type" Mills grenade.

TERM: mine
SUBDOMAIN: Ordnance
PART OF SPEECH: noun, verb
WORDFORMS: mine, mines, mining, mined
DEFINITION: 1. Container holding an explosive charge that is put under water, laid on the ground, or buried. A mine is exploded at will by a control device or by contact with a vehicle, ship, etc. Mines are used to hamper the movements of an advancing force or to make sea channels unsafe for enemy shipping. Sometimes a land mine is filled with a chemical agent rather than with an explosive. 2. Put mines in a field of battle, waterway, etc. 3. Dig under enemy positions.
CONTEXT SENTENCE: (1) The infantry must warn the assault guns of the proximity of anti-tank obstacles and mines, and must be prepared to guide the guns through such obstacles. (2) The road, which ran through the position, also was mined with Tellermines and wooden box mines.

TERM: mine clearance
SUBDOMAIN: Training & Doctrine
PART OF SPEECH: noun
WORDFORMS: mine clearance
DEFINITION: The process of removing all mines from a route or area.
CONTEXT SENTENCE: Terrain must be reconnoitered, especially when an attack at great speed is contemplated. Facilities for mine clearance must be at hand. If a tank detonates a mine, the remaining tanks must halt while the minefield is reconnoitered.

TERM: mine detector
SUBDOMAIN: Logistics & Construction

TERM: mobile frontier
SUBDOMAIN: Battles, Campaigns & Leaders
PART OF SPEECH: noun
WORDFORMS: mobile frontier
DEFINITION: A Nazi term employed to describe the control and policing methods that they would carry out at the end of hostilities on the Eastern Front. The German youth should have taken over control on both sides of the new frontier for “pacification purposes.” Likewise, it implied the enlargement of the territory by means of eliminating the “enemies” of the Reich.
DEFINITION SOURCE: Author’s proposal.
CONTEXT SENTENCE: Himmler, in a confidential speech in October 1943, implied that "mobile frontier" would be established as far cast as possible at the cessation of open hostilities, German youth was to be trained and toughened in policing the native population and the "barbarians beyond."

TERM: mobile steel pillbox
SUBDOMAIN: Logistics & Construction
PART OF SPEECH: noun
WORDFORMS: mobile steel pillbox, mobile steel pillboxes
DEFINITION: A German mobile steel pillbox. It is mounted in an inverted position on wheels, and overturned into a prepared cavity. After this, the exposed upper half of the pillbox (which is non-rotating) is camouflaged with rocks, earth, or local vegetation. The pillbox accommodates two men, and is armed with a M.G. 42.
DEFINITION SOURCE: IB-M34.txt.
SYNONYMS: Armored Crab (AE)

TERM: Mouse
SUBDOMAIN: Vehicles
PART OF SPEECH: noun
WORDFORMS: Mouse
DEFINITION: A mammoth fighting vehicle designed by the German Army. It was to weigh 207 tons, combat loaded. Two were actually built, although they were never equipped with their armament. The glacis plate up front is approximately 8 inches (200 mm) thick. Side armor is 7 inches (180 mm) thick, with the rear protected by plates 6 1/4 inches (160 mm) thick. The front of the turret is protected by 9 1/2 inches (240 mm) of cast armor, while the 8-inch (200 mm) thick turret sides and rear were sloped so as to give the effect of 9 inches (230 mm) of armor. Its main armament was the powerful 150-mm piece 38 calibers in length. It had a 75-mm antitank gun 76 calibers in length next to the 150-mm gun. A machine cannon for antiaircraft was to be mounted in the turret roof, along with a smoke grenade projector.

DEFINITION SOURCE: IB-M47.txt.
SYNONYMS: Maus (German)
CONTEXT SENTENCE: In size, the Mouse was considerably larger than any German tank. Its length of 33 feet made it nearly 50 percent longer than the Royal Tiger.

TERM: **Nazi Motor Corps**  
SUBDOMAIN: Battles, Campaigns & Leaders  
PART OF SPEECH: noun  
WORDFORMS: Nazi Motor Corps  
DEFINITION: The National Socialist Motor Corps, also known as the National Socialist Drivers Corps, was a paramilitary organization of the Nazi Party that existed from 1931 to 1945. The group was a successor organization to the older National Socialist Automobile Corps, which had existed since the beginning of 1930.
The Nazi Party was formed in Munich after World War I. It advocated right-wing authoritarian nationalism and a belief in the superiority of “Aryan” Germans. Its charismatic leader, Adolf Hitler, who was elected Chancellor in 1933, established a totalitarian dictatorship in central Europe, and thus precipitated World War II. The Nazi Party collapsed at the end of the war and was outlawed in Germany.

**TERM:** rotating band

**SUBDOMAIN:** Ordnance

**PART OF SPEECH:** noun

**WORDFORMS:** rotating band, rotating bands

**DEFINITION:** Soft metal band around a projectile near its base. The rotating band has a slightly greater diameter than the raised part of the rifling of the bore so that, as the projectile spins through the bore, the rifling cuts into the rotating band. The rotating band makes the projectile fit tightly in the bore by centering the projectile, thus preventing the escape of gas, and giving the projectile its spin.

**SYNONYMS:** driving band (BE)

**CONTEXT SENTENCE:** The projectile consists of a two-piece steel shell, similar in shape to our 105-mm M-1 shell, and has a rotating band of copper (on a steel backing) that is rolled into place.

**TERM:** self-propelled mount  
**SUBDOMAIN:** Vehicles  
**PART OF SPEECH:** noun  
**WORDFORMS:** self-propelled mount, self-propelled mounts  
**DEFINITION:** Motor vehicle on which a gun is mounted.  

**TERM:** semi-armored vehicle  
**SUBDOMAIN:** Vehicles  
**PART OF SPEECH:** noun  
**WORDFORMS:** semi-armored vehicle, semi-armored vehicles  
**DEFINITION:** An open-topped semi-armored vehicle. A reconnaissance or a troop carrier vehicle with or without an open-topped turret. It may be equipped either with wheels or tracks.  
**DEFINITION SOURCE:** Author’s proposal.

**TERM:** semiautomatic fire  
**SUBDOMAIN:** Ordnance  
**PART OF SPEECH:** noun  
**WORDFORMS:** semiautomatic fire  
**DEFINITION:** Fire delivered from a self-loading weapon, with a separate trigger pull for each shot fired. It differs from automatic fire, in which the gun continues to fire until the pressure on the trigger is released.  

**TERM:** semiautomatic  
**SUBDOMAIN:** Ordnance  
**PART OF SPEECH:** adjective  
**WORDFORMS:** semiautomatic  
**DEFINITION:** Partly self-acting; as applied to a gun, self-loading but not self-firing. A semiautomatic gun throws out the used shell and puts in a new one by its own recoil action or gas pressure, but a separate pull of the trigger is needed for each shot. Semiautomatic means partly self-acting, as distinguished from automatic, which means completely self-acting.  

**CONTEXT SENTENCE:** The 47-mm tank gun is a high-velocity semiautomatic gun, equipped with a hydrospring recoil mechanism.

**TERM:** semiautomatic fire  
**PART OF SPEECH:** noun  
**WORDFORMS:** semiautomatic fire  
**DEFINITION:** Fire delivered from a self-loading weapon, with a separate trigger pull for each shot fired. It differs from automatic fire, in which the gun continues to fire until the pressure on the trigger is released.  

**CONTEXT SENTENCE:** Effective rates of fire are considered to be 20 to 25 rounds per minute in semiautomatic fire, and 70 to 80 rounds per minute when the rifle is fired on full automatic.

TERM: Stalingrad
SUBDOMAIN: Battles, Campaigns & Leaders
PART OF SPEECH: noun
WORDFORMS: Stalingrad
DEFINITION: The Battle of Stalingrad (August 23, 1942 – February 2, 1943) was a major battle of World War II in which Nazi Germany and its allies fought the Soviet Union for control of the city of Stalingrad (now Volgograd). The heavy losses inflicted on the Wehrmacht make it arguably the most strategically decisive battle of the whole war. It was a turning point in the European theatre of World War II, the German forces never regaining the initiative in the East and withdrawing vast military force from the West to reinforce their losses.

SYNONYMS: the Battle of Stalingrad
CONTEXT SENTENCE: The division was withdrawn at the height of German success, sent to occupied France, and converted into the 24th Panzer Division (later to be destroyed at Stalingrad, though subsequently reformed in France).

TERM: submersible tank
SUBDOMAIN: Vehicles
PART OF SPEECH: noun
WORDFORMS: submersible tank, submersible tanks

DEFINITION: The Germans modified a standard Pz.Kw. 3 for submersion. The measures employed have included the sealing of all joints and openings in the tank with rubber and the introduction of a flexible air pipe, the free end of which was attached to a float. The supply of
air for the crew, as well as for the engine, was provided by this flexible pipe, which permitted submersion to a maximum depth of 16 feet. It took trained crews 24 hours to prepare the tanks for submersion.

CONTEXT SENTENCE: SUBMERSIBLE TANKS
The delays and difficulties that the Germans have encountered in transporting tanks across the rivers of Eastern Europe have increased the enemy's interest in all possible devices which might enable standard Pz.Kw. III to cross streams and rivers under their own power.

TERM: suicide corps
SUBDOMAIN: Organization
PART OF SPEECH: noun
WORDFORMS: suicide corps
DEFINITION: A small group of fanatical Nazis organized a suicide corps for the purpose of breaking up the seaborne invasion of the continent; a German version of the Japanese Kamikaze. In fact, the Nazi suicidists were laying their plans long before their Japanese allies conceived the idea for this unconventional tactic.
DEFINITION SOURCE: IB-M49.txt.
SYNONYMS: Kamikaze (Japanese)
CONTEXT SENTENCE: From this line of reasoning, the idea of a suicide corps was born. It was thought that a weapon could be devised in the form of a flying bomb which, when piloted to its target, could sink a large warship or troop transport.

**TERM**: track

**SUBDOMAIN**: Training & Doctrine / Tactics & Strategy / Vehicles / Logistics & Construction

**PART OF SPEECH**: verb, noun

**WORDFORMS**: track, tracks, tracking, tracked

**DEFINITION**: 1. Observe and mark on a chart the successive positions of a moving target. 2. Keep a gun pointed on a moving target. 3. Actual path of an aircraft over the surface of the earth. The course is the path which is planned for an aircraft to fly; the track is the path which it actually flies. 4. Follow or pursue an enemy to find out where he will go. 5. One of the two endless belts on which a full-track or half-track vehicle runs. 6. Metal part forming a path for a moving object, for example, the track around the inside of a vehicle for moving a mounted machine gun.

**CONTEXT SENTENCE**: (4) Tanks must not "track" each other. Vehicles in a straight line make an excellent target for enemy strafing; they raise more dust, which gives away their position. (5) Once, we fired on a Pz. Kpfw. IV Special, and hit it in the track. The crew bailed out immediately, and we thought the tank was out of action.
TERM: track discipline
